## TEST.

Hydrostatic pressure testing for hydraulic, industrial and metal hose assemblies. Utilizing various test equipment mobile onsite or in-house, we can test up to 50,000 PSI. Capitalizing on manifold test systems speeds the test cycle of high volume hose testing, ensuring fast delivery.

## TAG.

Tagging the hose makes it easier for you to identify and locate your hoses. Labeling services includes color coding, keyed fittings, imprinted metal tags or custom-scribed hose ferrules with critical hose information.

## TRACK.

Let us help you simplify your process for inventory management. All visual inspections, test certs, test schedules and history can be stored in an online, cloud database that customers can access. Run reports to notify you when a hose is due for review and download the file.
